Re: Filing Requirement Per Wis. Admin. Code Ch. PSC 113.0919 (4) 4220-GF-100

Dear Ms. Dorr:

On August 1, 2000, Wis. Admin Code Ch. PSC 113 – Service Rules for Electric Utilities took effect. The revised PSC 113 contains a number of filing requirements including PSC 113.0919 (4) which requires each utility to acquire or develop a computerized meter records system whose reporting system and software is acceptable to the commission.

This letter is to notify the Commission that Northern States Power Company – Wisconsin (NSP-W), d/b/a Xcel Energy, does utilize a computerized meter records system. NSP-W has utilized the ORCOM system on the AS400 for the past several years. Later this year NSP-W will be converting to a mainframe system called Meter Devices Management System or MDMS.

If you have any specific questions regarding this filing, please contact Robert Stabe – Manager of Electric Meter Field at 715.838.2353.

Respectfully submitted,

Brian R. Zelenak
Manager, Regulatory Policy
